Shrawan Rajendra Wandhekar

Full-Stack Java Developer

shrawanrw07@gmail.com | 9834386415 | LinkedIn |
GitHub | Portfolio | Medium

Skills

Programming Languages:	Java, JavaScript, TypeScript
Libraries/Frameworks:	Spring Boot, React, Spring Security, Hibernate
DevOps & Cloud:	Docker, AWS, CI/CD (Jenkins), Observability
Tools/Platforms:	Git, GitHub, Kafka, Maven, Postman
Databases/Cache:	PostgreSQL, MySQL, MongoDB, Redis
Core CS:	Data Structures and Algorithms (DSA), Computer Networks, Operating System, System Design

Work Experience

Freelance |Self Employed | Jan 2025- Present

- Collaborated with multiple clients to design and deliver custom web solutions, improving their online presence and user experience.
- Managed projects end-to-end, from gathering requirements to deploying the final product, consistently meeting deadlines and expectations.

Projects

RateMate | Link   Spring Boot| Spring Security| JavaScript| React| PostgreSQL| Redis

- Built a production-grade API platform with built-in rate limiting, secure access control, and request quotas, eliminating abuse and improving API reliability.
- Delivered a real-time analytics dashboard that visualizes requests, latency, and usage trends, enabling data-driven performance optimization.

Invoicely | Link   Java| Spring Boot| MongoDB| React| JavaScript| Clerk

- Optimized invoice generation with pre-built templates and PDF rendering, enabling users to create, download, and email invoices in under 10 seconds.
- Integrated Cloudinary for cloud storage and Clerk for authentication, ensuring secure, scalable, and production-ready invoice management.

RedditAnalyzer | Link   Java| Spring Boot WebFlux| React| Chart.js| Reddit JSON API

- Leveraged Gemini AI for sentiment analysis and topic extraction, delivering actionable subreddit insights with interactive visualizations.
- Built a real-time analytics pipeline using Spring WebFlux, capable of processing live Reddit data and generating results in < 5 seconds.

AnonDev | Link   Java| Spring Boot| JavaScript| React| PostgreSQL

- Developed a full-stack anonymous employee review platform enabling users to post, upvote/downvote, and comment on workplace experiences.
- Implemented advanced UI/UX features, including dynamic comment counts, instant vote updates, and company-specific feeds with search filters.

Education

NBN Sinhgad School of Engineering	CGPA: 7.24
B.E Computer Engineering	2022 - 2026

Certifications

- Software Engineer   - HackerRank
